THE TRADE IN CHICAGO.

Chicago, Nov. 18 (Special).-To-day's wheat range was only %c, the last prices barely %c under Fri-The experience has been the usual Saturday one, foreigners and seaboard indifferent, the profes sionals here inclined merely to even up. To-day's business was largely in the way of changing. Commission people were selling December. The crowd thought Armour was buying December and selling May through Mitchell. December opened at 67% to 67% c, sold between 67% and 66%c, and closed at 67c. May closed at 71 to 711/4c. To-night's prices are almost exactly where they were a week ago. Liverpool was % to %d higher; seaboard clearances were 346,000 bushels. The seaboard reported only five loads for export; the cash business here was limited to 75,000 bushels No. 1 Northern. Primary receipts this week are 5,383,000 bushels, compared with 6,022,000 bushels the week previous and 10,273,-000 bushels the same week last year; primary ship-ments for the week, 3,64,000 bushels, compared with 1.847,000 bushels the week previous and 6,714,000 bushels the same week last year. An increase of 1,000,000 bushels is expected in the visible on Mon-day. World's shipments will be about 7,220,000 bush-

els. The local stock will increase about 500,000 Corn all day was within a range of less than 4c. The last prices were barely 4c under Friday's. December closed at 31%c, after having opened at January closed at 31c. May sold at 33c and at 32% 632%c, and closed at 32%c. There was no in-crease in Western receipts, and, on the other hand, no increase in the seaboard or export de-mand. The cars here were 248, with 300 estimated for Monday. Seaboard clearances were 970,000 bushels. Liverpool was %d to %d higher. Stocks here this week will decrease about 1,000,000 bushels, and the public stock will probably be down to about 2,000,000 hushels. Some parts of the West to-day

report farmers offering more freely. Corn prices to-night are 1/2c to 1/2c over last Saturday's.

The oats range was narrower even than the corn, not quite %c. December closed at 23c; May at 24% 924% c. The cash demand for oats is decidedly better than for corn; receipts here have been light 127 cars to-day, with 170 for to-morrow. The West, however to-day has been selling outs more freely than it has been. Stocks here show no increase this week. Seaboard clearances to-day were only

Flaxseed was steady, prices 14c to 14c over Friday: December, \$1 2814; May, \$1 2754. Minneapolis. Hogs were 50 lower. Receipts this week have been 200,000 hogs: the estimate for next week is 195,000 hogs. The ex-

port demand keeps poor.

has immense properties, containing some of the richest and largest copper ore bodies ever seen. Large shipments have been made, proving the value of them. The Company is now equipping them in a first-class manner with large buildings, machinery, etc., and will soon have the property on a dividend paying basts, making it one of the great copper properties of the country. The stock is non-assessable and carries no individual liability. We are now offering a few thousand shares of the treasury stock of the Company at 20 cents per share. This offer will be good only during the month of November, when the stock will be advanced.

We want every investor in mining stocks to send for our prospectus and see if we do not make a much better showing and own much more valuable properties than many of the companies which are promoting stocks on the eastern market at the present time at from \$3 to \$15 per share; if we have not richer properties, larger ore bodies, are not working more men and equipping our praperties in better shape than any of them.

Remember that our stock is only 20 cents per share, while theirs is several dollars per share. This is an exceptional offer, so write at once for particulars to
